

JACQUELINE KRIM

Distinguished University Professor Emerita of Physics
Department of Physics, North Carolina State University, Raleigh, NC 27695-8202
(919) 513-2684, jkrim@ncsu.edu, <https://nanotribology.wordpress.ncsu.edu>

EDUCATION

1978	B.A., Physics	University of Montana, Missoula, MT
1984	Ph.D. Physics	University of Washington, Seattle, WA
1976		American Institute of Foreign Study (U.S.S.R.)(summer)
1977		University of California, Berkeley, CA (summer)

POSITIONS HELD

North Carolina State University, Raleigh, NC

1998 - present: Professor (1998), Distinguished University Professor (2014), Distinguished University Professor Emerita (2020) of Physics
2011 - 2015 Associate Dean for Research, College of Sciences*

Northeastern University, Boston, MA

1985-1998: Assistant (1985), Associate (1992), Full (1996) Professor of Physics

Sabbatical, post-doctoral and graduate appointments

1991-1992: Senior Research Fellow, Katholieke University Leuven, Belgium
2009 (calendar year) Visiting Professor of Physics, Duke University, Durham, NC
1984-1985: NATO Postdoctoral Fellow, Universite d'Aix-Marseille, France
1980-1984: Research Associate, University of Washington, Seattle, WA

HONORS: 2019 Fellow, American Association for the Advancement of Science (AAAS), *For distinguished contributions to the understanding of atomic-scale friction, wetting and surface roughening, and for exemplary efforts in scientific outreach and diversity;* **2018 Fellow, Society of Tribologists & Lubrication Engineers (STLE); 2015 American Physical Society (APS) David Adler Lectureship Award,** *For pioneering work in the physics of tribology and for excellent outreach to scientific and nonscientific audiences;* **2014 APS Outstanding Referee; 2010 NSF American Competitiveness and Innovation Fellow; 2002 NCSU Alumni Outstanding Research Award; 2001 Sigma Xi Distinguished Lecturer; 2000 Fellow, APS,** *For pioneering contributions to surface science and nanotribology, especially studies of kinetic roughening and the development of quartz crystal microbalance as a major tool for probing atomic-scale friction;* **1999 Fellow, American Vacuum Society,** *For elucidating fundamental aspects of friction, wetting, and roughening at surfaces;* **1995 NSF DMR Creativity Award, 1994 R.F. Bunshah Best Paper Award,** *Int. Conf. on Metallurgical Coatings and Thin Films,* **1987 NSF Presidential Young Investigator Award; 1984 NATO Postdoctoral Fellow, 1984 First annual Joseph and Evelyn Henderson Award, *for excellence in completed graduate research at the U. of Washington;* **1983 Achievement Reward for College Scientists, (ARCS) dissertation fellowship for outstanding doctoral students; 1975-1978 Tuition waiver from the U. of Montana, *for academic excellence;* **1978 B.A. with High Honors; 1974 Higher education scholarship, *as winner of the statewide design competition for the Bicentennial Commemorative Medallion for the State of Wisconsin.*******

* College of Physical and Mathematical Sciences prior to 2012 reorganization to include bioscience.

PROFESSIONAL ACTIVITIES

American Physical Society, Member since 1983

- Organizer, Focused Session on Tribology, March 1996, 1998, 2002, 2011 Meetings
- Organizer, Focused session on Van der waals interactions, March 2012, 2013 Meetings
- Member-at-Large to the Executive Committee of the Division of Materials Physics for the American Physical Society, (02-05) and Division of Condensed Matter Physics (05-08)
- Vice-chair, (Chair) of the Davidson Germer prize committee for the 2009 (2011) prize.
- DCMP fellowship award committee for 2007-2009
- Vice chair and chair for APS Southeast section, Beams award for research, 2008-2009
- Outreach to Congress advisory committee. 2008-2009
- David Adler lectureship award committee, 2016-2018
- Physical Review Applied Editorial Board, 2016- present
- Committee on Scientific Meetings, 2020-present

American Vacuum Society, Member since 1987

- Nanometer Science & Technology Division: Executive Committee (1992-94); (2011-13)
- Student Issues Committee (1989-1999); Co-Chair (1989-1991)
- Board of Trustees (1992-1995); Chair (1994-1995)
- Surf. Sci. Division: Exec. Committee (95-99); Program Chair (1998); Division Chair (1999)
- Organizer, Session on Atomic-Scale Friction, ICMCTF, April 1995
- Organizer, Session on Atomic-Scale Friction, ICMCTF, April 1996
- Chair of the AVS Education Committee, charged with coordination of scientific and technical outreach efforts at the national level for the AVS.
- AVS representative to the AIP Liaison Committee on Physics Education. 2004, 2005

Society of Tribologists and Lubrication Engineers, Member since 1996

- Editorial Board Member for Tribology Transactions (1996 - 2003)
- Editorial Board Member for Tribology Letters (1996 - present)
- Nanotribology short course instructor (2012, 2019 STLE National Symposium)
- ARPA-E Tribology Opportunities Study (contributing author)

Sigma Xi, The Scientific Research Society, Member since 2001

- Distinguished lecturer, 2001-2003
- Distinguished lecturer selection committee, 2014-2016

Southeast Conference for Undergraduate Women in Physics 2009-2011

- Organizing committee and National Organizing Committee (2009-2014)
- Local Organizing committee, 2010 conference

American Association for the Advancement of Science, Member since 2013

Editorial Boards, Journals and Publications

- Editorial Board Member for Tribology Letters, 1996 - present
- Advisory Editorial Board for Surface Science, 1999 - 2004
- Editorial Board Member for Tribology Transactions, 1997 - 2003
- Editorial Board Member for Physical Review Applied, 2016 – present
- Editorial Board Member for Frontiers in Mechanical Engineering: Tribology, 2019-present
- Guest Editor, Applied Surface Science Advances, 2020-2021

GRADUATE, UNDERGRADUATE AND POSTDOCTORAL MENTORSHIP ACTIVITIES

Graduate Students: (24 Ph.D's supervised, 2 M.S.; 2 in progress)

Eric Watts (Boeing, El Segundo, CA), Ronald Chiarello (C.E.O., Jetalon Solutions), Vania Panella (Author, Perugia, Italy), George Palasantzas (Univ. Of Groningen, The Netherlands), Christopher Daly (Hewlett Packard, Boston, MA), Chihong Mak (Linear Manufacturing, Hong Kong), Angela J. Dayo (Freelance writer), Silvina Tomassone, (Rutgers University), Mohamed Abdelmaksoud (Cairo University), Steve Winder (employment status unknown); Tonya Coffey (Appalachian State University, Boone, NC), Chernojaye (Brookhaven National Lab.), Matthew Highland (Argonne National Lab.), Worakarn Neeyakorn (King Mongkut's Institute of Technology Ladkrabang (KMITL), Bangkok, Thailand), Manju Varma (Qualcomm Corp.) Matthew Walker (Northrop Grumman, Baltimore, MD), Brendan Miller (Chevron Corp., San Francisco, CA), Chris Brown (Sail Venture Partners), Benjamin Dawson (Western Digital, Irvine, CA), Liming Pan (Northern Trust Company, Chicago, IL), D.Adam Hook (Environmental Protection Agency, Research Triangle Park, NC)), Iyam Lynch (Corinthian Ophthalmic, Boone, NC), Diana Berman (University of North Texas), Zijian Liu (Xin Clean Energy, Vertical Carbon Technologies, Newport News, VA), Keeley Stevens (Ph. D. in progress), Zachary Fredricks (906 Improvements LLC, Raleigh, NC), Samuel Kenny (Ph.D. in progress), Colin Curtis (M.S) Biplav Acharya (Intel Corp., Oregon), Caitlin Seed (Ph.D. in progress)

Postdoctoral Research Associates:

Klaus Mecke, (Univ. of Wuppertal), Brian Borovsky, (St. Olaf College), Kurt Ketola (Ratheon Corp), Sang Min Lee (Semiconductor firm California Bay), Mohamed Abdelmaksoud (Cairo University), Jonathan Bender (Afton Corporation), Brian Mason (Stanford Research Systems), Richard Chromik (McGill University, Montreal), Colin Baker (Naval Research Laboratory), Igor Altfeder (Wright Patterson Air Force Research Laboratory, Dayton, OH), Nimel Theodore (Naval Research Laboratory)

Undergraduate Research Participants and high school interns:

Frederick Kustin, Robert D. Kaiser, W. Alnasrallah, Michael Rose, Hymen Carrel, Eric Lada, Christine Lin, Lucas Wagner, Marcia Archibald, Alex Mayer, Kevin Rasch, Megan Miller, Daryl Purcell, Christina Hammock, Chole Palanchar, Danny Wise, Troy Bradshaw, Joe L. Browning, Allyson Hutchinson, Omar Parker, Jennifer Patton, Alex Mayer, Daryl Purcell, Chris Shumaker; Andrew Larson, Andrew Brown, Brian Vlastakis, Kyle Barefoot,

Jessica McNutt, Jonathan Pike, Edward Stevens, Ben Keller, Steve Corely, Rebecca Rosenfeld, Dustin Leninger, Brian McCann, Laura Goodman, Andrew Wright, Keshav Avva, Tyler Pardue, Binita Thapa, Rachel Andrus, Justin Shu, Brigid Donohue, Jenni Mangala

RESEARCH FUNDING (Prior and actively funded awards: \$12.9M)

"Growth Properties of Adsorbed Films", Northeastern U. Internal, \$4000. (9/1/86 – 8/31/87)
J. Krim, sole PI

"Wetting and Adsorption Properties of Physisorbed Films on Metals", Research Corp., \$9975,
(9/1/86 – 8/31/87) J. Krim, sole PI

"Presidential Young Investigator Award", National Science Foundation,
\$312,500, NSF Presidential Young Investigator Award (7/1/87 – 6/30/92) J. Krim, sole PI

"Porosity Characterization in Sputter-Deposited Films", IBM Corp., \$100,651 (7/1/87 – 6/30/89) J.
Krim, sole PI

"Interfacial Viscosity Measurements of Adsorbed Monolayers on Metal Surfaces",
Office of Naval Research, \$99,291 (7/1/89-6/30/91) J. Krim, sole PI

"Adhesion Measurements of Physisorbed Layers on Metal Surfaces",
Office of Naval Research, \$93,856 (7/1/91-6/30/93) J. Krim, sole PI

“Investigation of Self-Affine Surface Fractals through Adsorption Isotherms”, National Science Foundation, \$35,500.(7/1/89 – 6/30/90) J. Krim, sole PI

“Investigation of Self-Affine Surface Fractals through Adsorption Isotherms”, Petroleum Research Fund, \$40,000. (9/1/90-8/31/92) J. Krim, sole PI

“Quartz Crystal Microbalance Studies of Atomic-Scale Friction”, National Science Foundation, \$1,612,595. (7/1/92 – 6/30/08), J. Krim, sole PI

“Adsorption and Scanning Tunneling Microscopy on Rough Surfaces”, NATO International Scientific Exchange Programs, \$7,600. (7/1/91-6/30/93) J. Krim, sole PI

“Dynamic Scaling of Self-Affine Fractal Surfaces”, Petroleum Research Fund, \$50,000 (9/1/92-8/31/94) J. Krim, sole PI

“In-Situ Atomic-Scale Reaction Kinetics under Tribological Conditions”, National Science Foundation, Surface Energy and Tribology Program (SGER), \$48,357. (7/1/96-6/30/97) J. Krim, sole PI

“Vapor-phase Lubricants: Nanometer Scale Mechanisms and Applications to Sub-micron machinery”, Air Force Office of Scientific Research J. Krim, sole PI \$332,570 (12/31/97 - 11/30/00)

“Lubricants for Extreme Environments An Atomistic Approach to Solving Friction and Stiction in Micro-Electro-Mechanical”, National Science Foundation, \$449,938.00 (09/15/2000 - 08/31/2004) co-PI with C. Grant

“Vapor-Phase Lubricants: Nanometer-Scale Dynamics and Applications to Sub-Micron Machinery”, US Air Force, J. Krim, sole PI \$337,402.00 (01/01/2001 - 12/31/2003)

“Combined Experimental & Theoretical Study of Tribochemistry at the Nanometer Scale with Application to Nano-Mechanical Devices”, US Dept. of Energy, \$600,000.00 (09/15/2001-09/30/2005) Co-PI with D. Brenner

“Acquisition of a Scanning Probe System for Characterization of Nanostructure Properties”, National Science Foundation, \$450,000.00 (08/01/2003 - 07/31/2005) 5 co-PI's. RJ Nemanich, lead

“Multi-functional Extreme Environment Surfaces: Nanotribology for Air and Space”, US Air Force ,MURI \$4,947,012 (05/15/04 - 5/14/10) J. Krim, lead PI of a team of 12 co-PI's

“Hydrodynamic Lubrication in Fiber Processing”, NCSU National Textile Center Program, W. Kraus, lead PI with 2 co-PI's J. Krim portion \$168,780 (05/01/2006 – 12/31/08)

“Center for RF MEMS Reliability and Design Fundamentals”, University of California - San Diego G. Rebiez, lead PI , DARPA, J. Krim portion \$351,000(09/13/2006 - 09/12/2009)

“Basic Mechanism by which Detergents Keep Fuel Injectors Clean Using Quartz Crystal Microbalance Method” Afton, Corp. \$50,000. (8/24/2009 – 9/15/2011) J. Krim, sole PI

“Quartz Crystal Microbalance Studies of Atomic Scale Friction”, National Science Foundation, J. Krim sole PI (7/1/08-7/31/14), \$780,000, including a two year Creativity extension as an American Competitiveness and Innovation (ACI) Fellow.

“Collaborative Research Proposal: Conference for Undergraduate Women in Physics on January 15-16, 2011”, National Science Foundation \$7000, (1/1/2011-12/31/2011) J. Krim, PI, K. Daniels co-PI

“Collaborative Research Proposal: Conference for Undergraduate Women in Physics”, DOE (Prime) \$11,800. (1/14/2011-6/23/2011) J. Krim, co-PI

“Interdisciplinary Studies of Bio-Nano Interfaces” University Global Partnership Network (UGPN), \$30,000, (7/1/2012 – 6/30/2013) J. Krim, T. Smirnova, A.I. Smirnov

“Quartz Crystal Microbalance Studies of Atomic Scale Friction”, National Science Foundation, J. Krim sole PI (7/1/13-6/30/17), \$420,000.

“Atomic scale friction measurements in liquid environments” J. Krim, Sole PI, Eastman Chemical Company, (1/1/2016 – 8/15/2016) \$64,869.

“DMREF: Designing Material-Liquid-Nanoparticle Interfaces for Tribological Control” National Science Foundation, D. Brenner, J. Krim, A.I. Smirnov, B. Reich (8/15/2015 – 9/30/2021) \$1,502,223.
